THE PERFECT RELIEF FOR SPA AND FITNESS CENTRES

[PUDU CC1 – Our autonomous cleaning robot.](#)

Efficient – Smart – Reliable

With customised concepts, we contribute to creating a clean and inviting ambience – so that your customers feel completely at ease.

Our service and cleaning robots take over time-consuming routine tasks allowing your team to focus on the essentials: personal support and service optimisation.

Benefit from less stress, more efficiency and consistent service quality – we support you flexibly and reliably.

YOUR ADVANTAGES AT A GLANCE

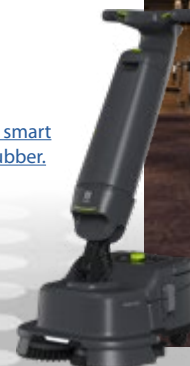

- Relief for your team
- Improved service quality
- Autonomous operation of the bots – even over several floors
- Customised concepts
- On-site service throughout Germany

Our robots offer flexible cleaning options, customised to your needs:

One example:

While the self-contained PUDU CC1 cleans surfaces, the hand-held PUDU SH1 cleans sports equipment, windows and hard-to-reach areas such as under weight-benches.

[PUDU SH1 – Our smart walk-behind scrubber.](#)

EH
Event Hotels

Gerald Scheurmann-Kettner,
CIO of Event Hotels

ROBOTS PLAY A PIVOTAL ROLE AT EVENT HOTELS ...

...by enhancing efficiency while elevating the guest experience. Both hotel staff and guests have responded overwhelmingly positively to their presence [...].

The integration of robotic technology at Event Hotels marks an important step towards the future, one that will be defined by continued technological advancements and increased digitalisation, including the use of artificial intelligence.
